With this DLC you are getting 1 extra mission, 1 non canon character from VC 1 and 1 weapon (which is outclassed after third story mission). Its a fun little addition and it only add value to other DLCs since you get this one for free when you buy at least one DLC for the main game.. If this was Marina's V Lynn's advance ops it would have been amazing.. One skirmish for my least favourite Squad 7 member. If this was Marina's V Lynn's advance ops it would have been amazing..
